1. INTRODUCTION

The uMgungundlovu District Municipality recognizes that crimes of dishonesty, such as fraud, corruption, and unethical practices are a threat to the limited resources at the Municipality's disposal and are therefore a threat to the Municipality's service delivery objectives. The Municipality further recognizes that this threat may occur internally or externally and may be perpetrated by, employees, members of the public, service providers, individually or in collusion with others.

The Municipality has both legal and moral duty to protect public funds under its control against fraud and corruption from both within the Municipality and from external sources. This Policy forms an integral part of the Municipality's Anti-Fraud Management Strategy and confirms the Municipality's commitment to sound corporate governance. The uMgungundlovu District Municipality expects all councilors and officials to lead by example in the achievement of probity and accountability by ensuring adherence to legal requirements, policies, and procedures.

The municipality further expects external stakeholders, such as suppliers, service providers, and partners, with whom it comes into contact, will act with integrity and honesty in all their dealings with the Municipality.

2. PURPOSE

The purpose of this policy is to provide the basis for building of an environment at uMgungundlovu District Municipality where crimes of dishonesty, such as fraud and corruption, and other unethical practices are efficiently, economically and effectively, prevented, detected, investigated and reported.

3. DEFINITION OF FRAUD AND CORRUPTION

Whilst crimes of dishonesty, such as fraud, corruption and theft, have specific legal definitions, a common thread that runs through these definitions is the obtaining of a benefit through deceit or dishonest means.

For the purpose of the Anti-Fraud Management Strategy, it is desirable that the term fraud is used in a broader sense than the strict legal definition, so as to encompass as wide a range of unethical

behaviour as possible, having a negative impact on the Municipality. As such, the term fraud as used in this Policy is defined as

“Any practice that involves acts of deceit or dishonesty by which a benefit is obtained from the Municipality, or where a benefit is obtained by virtue of one’s duties or functions within the Municipality”.

Accordingly, fraud as defined above, covers such acts as bribery, forgery, theft, corruption, conspiracy, misappropriation, false representation, concealment of material facts, and collusion. It also covers instances where non-monetary benefits are obtained, such as the misuse of time, or municipal assets.

4. POLICY STATEMENT

The uMgungundlovu District Municipality firmly commits itself to applying a ‘zero tolerance’ approach to fraud and to deal equally with officials, councilors and persons from outside of the Municipality, found to be engaged in fraudulent activities.
