PUBLIC NOTICE !!

PLANNED REDUCTION AND SHUT DOWN (PRS) PROFORMA OF STOMER BRIEF

Shutdown of Pipeline '53

Objective of PRS: To relocate 2.07 Km of '53 Pipeline DN 700 steel pipeline and tie it into the existing pipeline along the N3 Durban route at Ashburton Interchange for SANRAL to complete the construction of the N3 road.

Duration of Planned Shuts (PRS): The shutdowns will happen on 15 November 2023 from 08h00 to 18 November 2023 (72hrs). Currently, the Umlaas Road System gets 205ML/day from both Midmar and DV Harris Plants.

From the 205ML/day figure, DV Harris contributes 30 ML/day. During the shutdown duration, DV Harris will not be able to add its 30ML/day to Umlaas Road. The Umlaas Road System will only get a reduced flow of 175 ML/day instead of 205 ML/day. This means the flows to Eston, Mid Illovo, Emakholweni, Camperdown and parts of Lion Park and Manyavu will reduce.

- **Areas to be affected under uMkhambathini Municipality are Ward 7 and Ward 6.**
- **Areas to be affected under Richmond Municipality are Mbuthiswe/Nhlazuka , Mpofana, Gqulu, Nkonzweni and Mahlamvini**
